LONG WAY NORTH

IN CINEMAS 17 JUNE

Having won the coveted Audience Award at the 2015 Annecy International Animation Festival, **LONG WAY NORTH** has continued to attract universal acclaim as it enchants audiences across the world.

The beautifully animated adventure tells the story of 15-year-old Russian princess Sasha, who, when her explorer grandfather mysteriously goes missing on his latest expedition, embarks on an epic adventure to find him and his lost ship, the Davai.

Stunningly rendered in traditional hand-drawn 2D animation, the film is the directorial debut from lauded animator Rémi Chayé, and was co-produced by French studio Sacrebleu Productions and acclaimed Danish animation company Norlum (*SONG OF THE SEA*).

UK theatrical release by Soda Pictures on 17 June 2016. (R/T 80min, Cert: TBC).
