

Child Care History Network

A seminar will be held on Wednesday 1 November 2017
at 10.30 a.m. at Hinsley Hall, 62, Headingley Lane, Leeds, LS6 2BX on

Children's Homes:

What were they really like?
Have they a future?

The keynote speaker will be **Peter Higginbotham**, whose book *Children's Homes: A history of Britain's institutional care for its young*, has just been published. There will also be a paper by **David Lane** on what has been learnt about children's homes in the recent **Historical Institutional Abuse Inquiry in Northern Ireland**, and a **panel of former residents** of children's homes will speak about their experiences.

In the afternoon session, speakers will be **Janice Nicholson**, who manages award-winning services in North Yorkshire, and **Kevin Gallagher**, Director of Amberleigh Care, and they will address the question of **the future of children's homes**. Will they still have a role in children's services in the future, and if so, what will it be?

The seminar will be of particular interest both to professionals who are working in, or managing, children's homes, and to former residents.

The Child Care History Network was set up in 2008 to provide a forum for those who are concerned about the history of children's services and what can be learnt from studying the past, with a view to applying what has been learnt to current services. For further information see the CCHN website: www.cchn.org.uk

Accommodation will be available at Hinsley Hall @ £52 per night. Participants should make arrangements directly with Hinsley Hall: 0113 261 8000

Application Form for a place at the CCHN seminar on Children's Homes
